

One of the main things the Muslims of the Middle East HATE about America is its free, easy and sleazy television. The Monday night football scenaria with the football players and the naked actress is just what they most dislike. A flagrant disregard for marriage, privacy and modesty. If the muslim religious zealots were to become ascendant in this county, Hollywood and that ilk would be the FIRST to go to the chop block. Also consider the women who throw themselves at these high testosterone pro ball players than scream "Rape" when they are taken for what they are, whores. Please keep up the solid and firm stance on this smut on tv today. Someone needs to have standards and Americans have spoken at the ballot box and via letters. The small but LOUD minority of deviants cannot have the last word in America.
